

TOPICS

- TOPIC 01 : Advanced Materials and Nanotechnology
- TOPIC 02 : Materials Synthesis & Processing
- TOPIC 03 : Artificial Intelligence for Materials Science
- TOPIC 04 : Sustainable materials
- TOPIC 05 : Chemistry of materials
- TOPIC 06 : Water chemistry & Medical chemistry
- TOPIC 07 : Artificial Intelligence and Technological Development
- TOPIC 08 : Energy security and climate ambitions
- TOPIC 09 : Materials Science and Engineering
- TOPIC 10 : Photovoltaic solar energy, solar thermal energy
- TOPIC 11 : Protection and development of natural resources

4th icmse'25

15-17 NOVEMBER
EDEN - SIDI BEL ABBES

The international conference on materials science and engineering
and their impact on the environment

IMPORTANCE OF SUBJECT :

This conference will focus on the latest interdisciplinary research in the field of predicting new materials to provide solutions to energy challenges and climate change and environmental protection and is an unmissable event for senior and young researchers, students and industry professionals working in this field across the world.

SPEAKERS :

Pr. BENCHOUHRA Mouffak

Pr. El-Hadj KADRI

Pr. HARITH AHMED

Pr. BOUHAFS Bachir

Pr. HIROFUMI TANAKA

Pr. YARUB AL-DOURI

Nano-Micro Letters : e-ISSN: 2150-5551 and Print ISSN: 2311-6706 Scopus-indexed
Experimental and Theoretical NANOTECHNOLOGY Scopus-indexed : e-ISSN: 2590-4132
