SNEGD'2025

Context & Objectives – Sidi Bel Abbes

The National Seminar on Environment & Sustainable Management (SNEGD'25), organized by the Materials and Catalysis Laboratory at Djillali Liabes University of Sidi Bel Abbes, is a continuation of previous editions: SNEGD'22 (Maghnia University Center), SNEGD'23 (University of Relizane), and SNEGD'24 (University of Mostaganem).

This seminar aims to be a forum for discussion and debate, bringing together academics, researchers, students and socio-economic actors to address issues related to the environment and sustainable development. It aims to strengthen scientific research and innovation in order to consolidate a national policy based on the circular economy and sustainability.

The main objective of this meeting is to raise awareness among the various actors about environmental challenges, encourage them to adopt sustainable solutions, and promote scientific and technological advances that will preserve natural resources and improve the quality of life for future generations.
