

Liste des revues AERES pour le domaine

STAPS (Mise à jour le 5 avril 2012)

Pour de nombreuses disciplines de Sciences humaines et sociales, la production de livres reste la forme majeure de l'œuvre scientifique. Parallèlement, la multiplication des revues constitue aujourd'hui un outil essentiel d'animation et de diffusion permanentes dans le milieu de la recherche.

Des commissions disciplinaires regroupant des représentants des sections du CoNRS et du CNU, des membres de l'IUF, des personnalités qualifiées étrangères et les délégués scientifiques de l'AERES ont été fondées en 2008 ; elles ont abouti à l'élaboration des premières listes, publiées sur le site de l'AERES, actualisées en octobre 2009, puis en avril 2012.

Ces listes ne constituent pas un cadre contraignant et l'appréciation de la qualité des travaux par les experts reste le critère primordial d'évaluation.

Membres de la commission d'actualisation (2012)

Ont ainsi participé à la commission d'actualisation de la liste Sciences et Techniques des Activités Physiques et Sportives (STAPS) pour 2012 :

- Franck Barbier, Université de Valenciennes, Section 74 du CNU
- Emmanuel Bayle, Université Lyon 3
- Reinoud Boostma, Université Aix-Marseille, IUF, Section 74 du CNU
- Geneviève Cogérino, Université de Picardie
- Vincent Dru, Université Paris Ouest - Nanterre, Section 74 du CNU
- Pascale Duche, Université Blaise Pascal, Clermont Ferrand, Section 74 du CNU
- Christine Menesson, Université Toulouse 3, Section 74 du CNU
- Vincent Nougier, Université Grenoble 1, Président de la Section 74 du CNU
- Stéphane Perrey, Université Montpellier 1, IUF
- Thierry Terret, Université Lyon 1
- et François Cury, Délégué scientifique de l'AERES

Modalités d'élaboration de la liste

Pluridisciplinaire, la liste des revues en Sciences et Techniques des Activités Physiques et Sportives est formée d'un ensemble non exhaustif de revues constituant le périmètre actuel du champ. Sur la base d'une sélection effectuée par les pairs, la commission a ainsi décidé de retenir les revues les plus significatives dans le champ des recherches en STAPS.

Afin d'aider la communauté à situer ces revues les unes par rapports aux autres, il leur a été associé un critère descriptif indicatif, leur niveau d'impact étant exprimé en termes relatifs et non pas absolus, lorsqu'un tel descripteur était disponible.

L'ensemble de la liste est constitué de revues de rang A. Chacune de ces revues fait également l'objet d'un classement en fonction de sa qualité et de son rayonnement (niveau 1, niveau 2, niveau 3).

Pour les travaux effectués dans d'autres champs disciplinaires, il convient de se reporter aux listes établies par les commissions d'actualisation correspondantes. Le travail régulier des commissions aboutira à des révisions annuelles.

Les directeurs de publications qui souhaiteraient voir leur revue intégrer la liste doivent s'adresser au Délégué scientifique SHS de l'AERES chargé de l'actualisation des listes de revues, [Jean-Paul Barrière](#), qui transmettra au Délégué scientifique du domaine concerné, et lui fournira toutes les informations qu'ils jugeront utiles afin que la Commission étudie leur demande.
